Phone/WA: +62 815 1027 3784

A dedicated Computer Science graduate with expertise in Full-Stack Web Development, Data Analysis, and Process Automation. Experienced in building web applications, interactive data dashboards, and automating business processes using Power BI, Excel, and VBA.

SKILL SUMMARY

Programming & Development:

- Languages: C#, HTML, JavaScript, CSS, Python
- Frontend Frameworks: React, Vue.js, Angular, Next.js
- Backend Frameworks: Node.js, Laravel, Django, Flask
- Database Management: MySQL, Microsoft SQL Server, SQLite

Enterprise Systems & HR Tools:

- SAP 100 & 180: HR data management, contract tracking, payroll processing
- Microsoft SharePoint: Document management & internal collaboration

Data Analysis & Automation:

- Data Visualization & Reporting: Power BI, Power Query, Excel
- Automation & Scripting: Excel Macro VBA

Workflow & Documentation:

- Process & Workflow Optimization: Microsoft Visio
- Technical Documentation & SOP Writing: Microsoft Word

Internal Communication & Design:

- Presentation & Visual Content Creation: Microsoft PowerPoint, Canva

Machine Learning & Data Science:

- Libraries: Pandas, NumPy, Matplotlib, Seaborn, Plotly, Scikit-learn, TensorFlow, Keras

WORK EXPERIENCES

PT. Pertamina Hulu Energi
Human Capital Information System (HCIS) Intern *Jakarta, Indonesia* || November 2023 – October 2024

- Developed interactive data visualizations using Power BI and Power Query to analyze contract worker data, providing in-depth insights into performance, turnover, and key workforce metrics.
- Conducted Quality Assurance (QA) and code reviews for applications developed by the IT department, ensuring system stability and functionality.
- Created technical documentation and user guides for newly launched applications to support adoption and usability.
- Designed and optimized workflow processes using Microsoft Visio, improving operational efficiency in HCIS-related applications.
- Automated HR document processing using Excel and macro VBA, streamlining administrative workflows and reducing manual errors.
- Designed internal broadcast materials using Canva and PowerPoint for company-wide announcements, including new SOPs, national holidays, and collective leave, ensuring clear and effective communication.
- Utilized SAP 100 & 180 for HR data management, including employee record updates, contract tracking, and payroll processing.
- Assisted in generating reports and extracting HR-related data from SAP for analysis and decision-making.

PT. Lintas Media Danawa
AI Engineer Intern *Jakarta, Indonesia* || September 2023 – October 2023

- Developed an auto-learning chatbot using Python, improving customer interaction efficiency and response accuracy.
- Designed and implemented machine learning models to enhance chatbot performance based on user input and feedback.
- Conducted data preprocessing and model optimization to improve chatbot accuracy and responsiveness.

FINISHED PROJECTS

1. Quality Assurance & Workflow Documentation for "P-Mobile" - PT Pertamina Hulu Energi

- Conducted Quality Assurance (QA) testing on "P-Mobile," an internal mobile application, ensuring system stability and functionality.
- Identified and documented bugs, UI/UX issues, and performance bottlenecks, collaborating with the IT department for improvements.
- Developed workflow documentation using Microsoft Visio and Word, providing structured guidelines for end-users on application usage.
- Contributed to enhancing user experience and operational efficiency through structured workflow optimization.

2. Officer Contract Dashboard - PT Pertamina Hulu Energi

- Developed a data visualization dashboard to monitor contract worker activities across all PHE regional offices.
- Utilized Power BI, Power Query, and Excel to transform raw data into interactive reports.
- Improved data accessibility and decision-making by reducing manual tracking efforts by 40%.

3. Employee Activity Traffic Dashboard - PT Pertamina Hulu Energi

- Built a dashboard to analyze employee activity traffic for an internal application used across all PHE regional offices.
- Integrated data from multiple sources using Power BI and Power Query, enhancing real-time monitoring.
- Helped management identify usage trends and optimize system performance.

4. HR Data Management & Reporting Using SAP - PT Pertamina Hulu Energi

- Managed and updated HR contract worker records using SAP 100 & 180, ensuring data accuracy and compliance.
- Extracted and processed HR-related data from SAP for reporting and workforce analysis.
- Assisted in payroll processing and employee contract tracking through SAP, improving efficiency in HR operations.
- Integrated SAP-generated reports into Power BI dashboards, enabling real-time workforce monitoring and data-driven decision-making.

4. Workflow Optimization for Application Usage - PT Pertamina Hulu Energi

- Designed and documented workflow processes using Microsoft Visio, Canva, and Figma.
- Created step-by-step guidelines and SOPs to enhance user adoption and streamline business operations.

5. Internal Broadcast System & Public Holiday Announcements - PT Pertamina Hulu Energi

- Designed and developed an internal broadcast system for company-wide announcements.
- Created visual materials using Canva and PowerPoint for SOP updates, national holidays, and common leave.
- Ensured clear communication across all employees by improving announcement visibility.

6. Thesis - Classification of Meat Freshness Using AI

- Developed a machine learning model using Artificial Neural Networks (ANN) to classify fresh and spoiled beef.
- Utilized a Kaggle dataset (1,996 instances) and real-case images for model training and validation.
- Achieved 97% accuracy, demonstrating expertise in data preprocessing, feature engineering, and AI model development.

7. Scientific Research - Web-Based Fanpage

- Designed and built a fanpage website featuring artist biographies, event listings, a merchandise store, and a music gallery.
- Integrated external links for ticket purchases and created an interactive UI using HTML, CSS, and JavaScript.
- Focused on enhancing user engagement and seamless navigation for fans.

EDUCATIONS

Gunadarma University

Bachelor of Computer Science; GPA: 3.37/4.00 *Jakarta, Indonesia* || September 2019 – August 2023

SMA Negeri 9 Kota Bogor

Mathematics and Natural Sciences (MIPA) *Bogor City, Indonesia* || July 2016 – July 2019

CERTIFICATES

Programming & Software Development

- Desktop-Based Programming Fundamentals
- Building Websites Using HTML5
- Visual Basic.NET for Beginners
- Visual Basic.NET for Intermediate
- Introduction to C/SIDE
- Programming in Microsoft Dynamics NAV

Data Science & Machine Learning

- Data Science Course
- Microsoft Dynamics NAV for Beginners
